

MODULE NAME: Pediatric and Child Health Nursing
Module Code: NursM4023

Course instructor: tamanuel16@gmail.com

- 1. Introduction to Pediatrics (2hours)**
 - Definition of terms
 - History of Neonatal and Pediatric Nursing
 - Neonatal and Child Morbidity and Mortality in Ethiopia
 - Role of Nurses in Neonatal and Child Health
- 2. Pediatric Health Assessment (5hours)**
 - New born assessment
 - Essential New born Care
 - **Pediatric Assessment(case based individual Assignment)**
 - Pediatrics emergency
 - Emergency Triage Assessment and Treatment (ETAT) principles
- 3. Adjustment to Extra uterine Life (5hrs) Assignment**

Respiratory System

 - **Circulatory System**
 - **Thermoregulation,**
 - **Hematopoietic**
 - **Fluid and Electrolyte Balance**
 - **Gastrointestinal System**
 - **Renal System**
 - **Integumentary System**
 - **Fluid and Electrolyte Imbalance(MF)**
 - **Thermoregulation (Hypothermia and**
 - **Hyperthermia)**
 - **Glucohomestasis (Hypoglycemia and Hyperglycemia)**
- 4. Growth and Development (4hrs)**
 - Growth and Developmental Millstones:
 - Principles of Growth and Development
 - Factors Affecting Growth and Development
 - Theory of Growth and Development Stages
 - Anticipatory Guideline
- 5. Classification of New born (2hours)**
 - Based on Maturity and Birth Weight
- 6. New born Feeding (2 hours)**
 - New born, Infant and young child feeding (Exclusive breast feeding, Complementary feeding, Formula Feeding) Position and Attachment
- 7. Child Nutrition (4hours)**
 - **Nutritional Assessment**
 - Malnutrition

8. New born disorders (7hrs)

- Birth Asphaxia
- HMD(Respiratory Distress Syndrome)
- Meconium Aspiration Syndrome
- Jaundice
- Sepsis, Meningitis, Necrotizing Enter colitis, Neonatal tetanus, Congenital infection, TORCHS
- Infants of diabetic mother

9. HEENT disorders (5hrs) group assignment

Head:

- Headache
- Head Injury

10. Eye disorders(Assinment)

- Conjunctivitis
- Myopia & hyperopia
- Nystagmus
- Pediatrics cataract
- Eye injury
- Retinoblastoma
- Pytosis
- Orbital cellulites
- Glaucoma

11. Ear disorders

- Hearing loss
- Otitis external
- Foreign body
- Ear infection (acute & chronic otitis media....)
- Otosclerosis
- Mastoiditis
- Labyrinthitis

12. Nose disorders

- Choanal atresia
- Epistaxis

13. Birth Injures (6hrs)

- Birth Injuries
- Soft Tissue Injury
- Caput Succedaneum
- Cephalo-hematoma
- Subgaleal Hemorrhage
- Brachial Palsy
- Phrenic Nerve Paralysis
- Hemolytic Disease of the Newborn
- (Hyperbilirubinemia or Jaundice)
- RH and ABO incompatibility

14. Respiratory system disorders (6hrs)

- Common cold
- Croup
- Bronchitis
- Pneumonia
- Sinusitis
- Pharyngitis
- Tonsillitis
- Tuberculosis
- Mastoiditis
- Epiglottitis
- Empyema
- Emphysema
- Child hood asthma
- Foreign body aspiration
- Neoplasm of the Larynx, Trachea

15. Congenital heart disease (4hrs)

- Congenital heart disease (VSD , ASD, PDA, Coarctation of aorta, TOF, PVS, AVS ,Transposition of great arteries, Truncus, arteriosus, Single ventricle)
- Trachea-esophageal fistula
- Cleft palate/lip
- Gastro-intestinal anomalous(omphalocele, Gastro-eschasis)
- Genito-urinary anomalies (Bladder Extrophy)
- Rectal anomalies (Imperforated anus)
- Musculo - skeletal anomalies (Club foot, Hip bone dysplasia)
- Genital anomalies (phimosis, paraphimosis, cryptorchidism)

16. Cardiovascular disorders (6hrs) Reading assignment

- Acute rheumatic fever and rheumatic heart disease
- Infective endocarditis
- Heart failure
- Myocardial infarction,
- Cardiomyopathy
- Angina pectoris
- HTN

17. Hematologic disorders (2 hours)

- Anemia
- Polycythemia
- Hemophilia

18. Common Genetic Disorders (2)

- Down syndrome
- Autism

19. Gastrointestinal disorders (6hrs)

- Disorders of the oropharynx (E.g. Oral and Esophageal Lesions)
- Esophageal disorders (esophageal varices, Esophageal cancer)

- Abdominal trauma
- Peritonitis
- Appendicitis
- Gastro esophageal reflex
- Inflammatory bowel diseases
- Diarrheal diseases
- Intestinal parasitosis
- Hepato-biliary disorders
- Pancreatitis
- Hepatitis
- Anorectal Disorders(like haemorrhoids)
- Hirsch sprung Diseases
- Short bowel syndrome
- Intussusception
- Pyloric stenosis
- Hernia (hiatal, inguinal, Femoral, Umbilical, Incisional)

20. Renal Disorders (5hrs)

- Nephrotic Syndrome
- Hemolytic Uremic Syndrome (HUS)
- Renal Failure/Acute Kidney injury
- Renal Tubular Acidosis (RTA)
- Urinary Tract Infection (UTI)
- Renal Stones
- Glomerulonephritis
- Polycystic Kidney Disease (PKD)

21. Neurologic disorders (3 hours)

- Epilepsy/Seizure
- Meningitis

22. Integumentary (4hours) Group Assignment

- Skin lesions
- Acne , Warts & Scabies
- Atopic dermatitis/eczema
- Seborrheic dermatitis
- Psoriasis
- Erythema toxicum
- Impetigo
- Cellulitis
- Pyomyositis
- Folliculitis
- Carbuncle
- Furuncle
- Mucocutaneous Lishmaniasis
- Fungal Infections of the Skin (Onychomycosis, Dermatophytosis, Tineacorporis, Tinea capitis, Tineacruris & Tineapedis)

- Burn

23. Musculoskeletal Disorders (4 hours) Reading Assignment

- Osteomyelitis
- Arthritis
- Fracture
- Bone cancer
- Dislocation
- Strain
- Sprain
- Spinal curvature defects (Lordosis, Scoliosis, Kyphosis)

24. Pediatric oncology (4hrs)

- Oncology (Lukemia, Wilms Tumor and other)
- Pediatric HIV
- Palliative Care

25. Endocrine Disorders (4hrs)

- Shock
- DM
- Hyperthyroidism and hypothyroidism

26. Integrated Management of New born & Childhood Illnesses (8hours)

27. EPI and Vaccine Preventable Disease (8hours)

28. Cold Chain Management & Vaccine administration
