

Individual assignment (10%)

Instruction: Write a brief report of maximum **two** pages and reports greater than the indicated page and submitted after the deadline are not accepted!

1. Assume that you are assigned to manage a nutrition project that aims to promote fruit and vegetable consumption in Woreda X. Write a concise report detailing how you would apply various aspects of project management. Elaborate on the specific actions you would undertake, including how you would identify and prioritize problems, the personnel needed, who would handle specific tasks, the leadership approach you would adopt and the reasoning behind it, how you would track activities and assess performance, as well as the overall coordination of the project.

NB: You can assume a Woreda you know for sake of practical consideration and to use the Woreda characteristics to justify your explanations (e.g. problem).

Good luck!

Deadline: 25 March 2025
