

Process Industries II Group Assignment for 4th Year Chemical Engineering Students

Discuss briefly the **manufacturing process** of the following classes of antibiotics. Although your focus is on the manufacturing process, you should also discuss their **mode of action** and **classification**.

1. Tetracyclines (Group 1)
2. Cephalosporins (Group 2)
3. Quinolones (Group 3)
4. Lincomycins (Group 4)
5. Macrolides (Group 5)
6. Sulfonamides (Group 6)
7. Glycopeptides (Group 7)
8. Aminoglycosides (Group 8)
9. Carbapenems (Group 9)

Note: You should submit the assignment by next week.
